

## Technical Data Sheet : Lint Free Non-Woven Cloth (KAT-N09LFNW)

### Product Description:

A **Lint Free Non-Woven Cloth (KAT-N09LFNW)** is a special type of cleaning cloth that does not give up any fluff when used. Being free of lint means the cloth is less likely to build up a charge, which can cause ESD, damaging electronic equipment, like HD televisions, computer monitors and digital cameras.

### Features :

- Non-woven fabric wipes, which combines strength, softness and quality.
- Ensure excellent barrier properties and physical properties to guarantee the protective function, that can meet.
- Low-lint properties, no particulates.
- Up to 97% bacterial filtration efficiency, 3 times more than cotton.
- Compatible with major sterilization processes such as plasma, ETO and steam
- With high blocks and high tensile strength to avoid penetration, tearing and bursting in use

### Application:

- **lint-free** are often selected for medical device and electronics manufacturing where residues must be strictly controlled.
- Used for Disposable medical sterilization wrap.
- These wipes are used for wiping in the procedure where low lint or use of the chemical is required.
- Great for cleaning and polishing glass, windows, metal and stainless steel.
- Mainly used for cleaning and dressing purposes in hospitals and nursing homes.
- Can use with cleaning chemicals and agents.

### Physical Properties & Specifications:

| Properties             | Metric                                  |
|------------------------|---|
| Material               | 100% Polypropylene                      |
| Nonwoven Technics:     | Spunbond + Meltblown (SSMMS, SMMS, SMS) |
| Basic Weight Range:    | 35-55gsm                                |
| Maximum Width:         | 30 Cms                                  |
| Color:                 | White / Customize color                 |
| Pattern                | Plain                                   |
| Size                   | 9" x 9", 10" x 10", 12" x 12",          |
| Type                   | Disposable                              |
| Packing                | 100 or 500 pcs per poly pack            |
| Minimum Order Quantity | 2000 Piece                              |
| Self Life              | 12 Months if in Original Pack Condition |

**Note :** The above product recommendations are done in the best knowledge and experience we have at **Klebstoff**, however, we advice that the product has to be tested for a particular purpose and real time application by the customer before ordering. **Klebstoff**, holds the right to make any modifications/improvement in the product in the interest of better performance in the product.
