

Technical Data Sheet : Lint Free Polyester Cloth (KAT-N09LFPC)

Product Description:

A **Lint Free Polyester Cloth (KAT-N09LFPC)** is a special type of cleaning cloth that does not give up any fluff when used. Being free of lint means the cloth is less likely to build up a charge, which can cause ESD, damaging electronic equipment, like HD televisions, computer monitors and digital cameras.

Features :

- Polyester fabric wipes, which combines strength, softness and quality.
- Ensure excellent barrier properties and physical properties to guarantee the protective function, that can meet.
- The requirements of domestic and foreign medical environments.
- High wood pulp content absorbs cleaning chemicals, solvents, oils and cleaning agents.
- Strong, durable, tear resistant.
- Strong polyester fibers ensure cloth will not break down when wet.

Application:

- **lint-free** are often selected for medical device and electronics manufacturing where residues must be strictly controlled.
- Used for Disposable medical sterilization wrap.
- These wipes are used for wiping in the procedure where low lint or use of the chemical is required.
- Great for cleaning and polishing glass, windows, metal and stainless steel.
- Mainly used for cleaning and dressing purposes in hospitals and nursing homes.
- Can use with cleaning chemicals and agents.

Physical Properties & Specifications:

Properties	Metric
Material	100% Polyester
Polyester Technics:	N / A
Basic Weight Range:	35-55gsm
Maximum Width:	30 Cms
Color:	White / Customize color
Pattern	Plain
Size	9" x 9", 10" x 10", 12" x 12",
Type	Disposable
Packing	100 or 500 pcs per poly pack
Minimum Order Quantity	2000 Piece
Self Life	12 Months if in Original Pack Condition

Note : The above product recommendations are done in the best knowledge and experience we have at **Klebstoff**, however, we advice that the product has to be tested for a particular purpose and real time application by the customer before ordering. **Klebstoff**, holds the right to make any modifications/improvement in the product in the interest of better performance in the product.
